AMERICA

# TeST your safety knowledge

with Tokio Marine's e-Safety Training Resource.

## Interactive On Line Driving Training Courses for both Commercial and Passenger Vehicles

Tokio Marine America is dedicated to helping our clients and their employees remain safe at all times. Automobile accidents are a leading cause of accidental injury in the workplace. According to the U.S. Bureau of Labor Statistics (BLS) more than 1,766 deaths a year result from occupational transportation incidents. That number is more than 38 percent of the 4,547 annual number of fatalities from occupational injuries. Fatal transportation incidents were lower by 10 percent in 2013, but still accounted for about 2 out of every 5 fatal work injuries in 2013.

Preventing work-related roadway crashes requires strategies that combine traffic safety principles and sound safety management practices. Although employers cannot control roadway conditions, they can promote safe driving behavior by providing safety information to workers and by setting and enforcing driver safety policies. Crashes are not an unavoidable part of doing business. We offer a wide selection of training courses to help broaden the driver's knowledge of recognizing and avoiding roadway hazards that can contribute to vehicle accidents.

**Decision Driving®** covers the importance of a positive approach to safe driving and how to expand your field of vision on the road. Also included are skills for planning an escape route in the event of an accident ahead, and how to take safe but decisive action behind the wheel.

**Pace Behavioral Driving;** PACE (Plan Ahead, Analyze the Surroundings, Communicate with Others, Execute Safe Driving), this behavioral driving method has been developed to assist you in experiencing a more stress-free, uneventful, and safer workplace driving environment.

**Road Rage** educates your employee drivers on avoiding aggressive drivers, what to do if they become the victim of aggressive driving, and the importance of avoiding aggressive driving themselves.

**Winter Driving: Weather the Road** prepares your drivers to handle whatever the season throws your way. The course covers preparing for winter, what to do before driving in winter weather, and winter driving techniques.

**Driver Awareness: 15-Passenger Van Safety:** With over 11 interactions in multiple lessons, this attention-getting program will help keep your drivers and their passengers safe while on the road. While this training program focuses on 15-passenger vans, the safety information also applies to 12-passenger vans

**Transportation of Dangerous Goods** created specifically for use by companies located in or shipping items to organizations in Canada, addresses the Transportation of Dangerous Goods Act, when a material is considered hazardous, and the job functions of the regulation.

**DOT Training** drives the importance of commercial motor vehicle safety that includes both 16-passenger vans and 18 wheelers. These courses are an essential part of your compliance training and will assist you with preventing costly on-the-road accidents.

- ◆ DOT Driver Logs
- ◆ DOT/ CSA: Profiled in Safety
- ◆ DOT Driver Qualifications
- ◆ DOT Driver Wellness
- ◆ DOT Drug & Alcohol Testing (2 Part Series)
